

Product Fact Sheet

Snap Signs™

Description

Snap Signs are used to identify ½” to 4” diameter cables and pipes. Snap Signs open up to snap around the cable or pipe. When you release the Snap Sign it curls up tight around the cable/pipe.

UV Stable

Both, the curled vinyl material and our inks are UV stabilized for outdoor use. They resist fading and cracking normally caused by Ultra Violet light.

Matte Finish

This special finish makes it easy to write on with permanent markers.

Vinyl Colors

• Orange • Green • Red • Yellow • White • Black • Blue

Legends

Standard legend is “Caution Fiber Optic Cable”. Custom legends are available with a set-up charge.
